

Plasterpol
eps facade system

“BUILD YOUR PERFECT HOME WITH PLASTERPOL”

› LET'S TALK

“The Plasterpol EPS Façade System will provide durability and beauty to your home at a price that will fit your budget and exceed your expectations...”

› WHAT IS PLASTERPOL?

The Plasterpol EPS Facade system is a cost effective exterior insulating facade perfect for your residential home or light commercial building.

The Plasterpol EPS Facade system is a premium 50mm thick High density expanded polystyrene panel that comes in 2 options:

Type:	Sheet Thickness:	R-Values:
Plasterpol H Grade Panel	50mm Thick	1.39
Plasterpol Platinum Panel	50mm Thick	1.56

The Plasterpol EPS panel is lightweight, fast to install, durable and will not rot; creating a comfortable, healthy living space. The EPS panel is fixed to the outside of timber or steel framed buildings over a 20mm drained cavity keeping your home warm and dry. Finished with Supercoats time tested coatings ensures your home protection under all conditions.

The Plasterpol system has been appraised by the Building Element Assessment laboratory (BEAL) to ensure it complies with the NZ building code requirements.

The Plasterpol Facade system is designed to provide maximum performance and style at a price that fits your budget.

› DESIGN YOUR HOME WITH SUPERCOAT™ COLOURS AND TEXTURES

Supercoats meshed reinforced plaster and paint systems have provided optimum protection to homes across NZ since 2007 and are especially formulated for our harsh climate and extreme conditions.

Supercoats high performance coating systems are applied to the Plasterpol EPS panels not only create a beautiful exterior but to provide exceptional weather protection and crack resistance.

Supercoat™ offer an attractive selection of finishes ranging from the latest fine textures to the traditional undulated Adobe, there is a finish and style to suit everyone. Supercoat™ provides low maintenance exterior coating systems you can trust.

The Plasterpol system is supplied, fixed and coated throughout NZ by registered Plasterpol professionals to ensure top quality work every time.

› LET'S TALK ABOUT THE BENEFITS

Cost Effective

A warm, dry home that looks amazing but won't cost the earth. Plasterpol is designed to offer you REAL savings.
